Physicians, Advanced Practice  
Nurses, Physician Assistants, and  
other health care providers in  
military and other settings,  
including those involved in STD  
control and prevention programs.

### Course Faculty:

Heidi Bauer, MD, MS, MPH  
Linda Creegan, MS, FNP  
Sarah Guerry, MD  
Alan Katz, MD  
Louise Johnson, PHN

## *Join us on October 26, 2007 for* **CHALLENGES IN DIAGNOSIS, TREATMENT, & PREVENTION OF SEXUALLY TRANSMITTED INFECTIONS**

*Tripler Medical Center, Rm. 101ABC, Honolulu, HI*  
**8:30 AM-5:00 PM**

### LEARN ABOUT:

Local & national STD trends, risk groups & public health focus • Army  
public health & contact tracing • Management of genital lesions •  
Managing male urethritis, gonorrhea, & chlamydia • Challenges in  
diagnosing STDs in women • Screening & partner management  
strategies • Topics in syphilis management • Getting the information  
you need to prevent STDs and HIV

### ACHIEVE THESE OBJECTIVES:

- ✓ Describe current **epidemiology** of **chlamydia, gonorrhea, syphilis** in  
Hawaii and the United States.
- ✓ State the purpose of STD consults & their role in army public health &  
contact tracing
- ✓ State 2 specific communication skills that will enhance history-taking.
- ✓ List differential diagnoses for the patient with genital ulcers & discuss  
treatment options for relief & suppression of symptoms, & prevention of  
transmission to partners for patients with genital herpes.
- ✓ Discuss **recent changes in recommended treatment for gonococcal  
urethritis.**
- ✓ List diagnostic criteria for cervicitis; discuss prevention options for BV and  
candidiasis; compare treatment options for PID.
- ✓ Apply STD screening recommendations for women under age 26 & HIV+  
persons. Describe one expedited partner strategy.
- ✓ Outline decision algorithm for evaluating a patient with a positive serologic  
test for syphilis.

**CHALLENGES IN DIAGNOSIS, TREATMENT & PREVENTION OF STIs** covers  
epidemiology, diagnosis, treatment, and management of STDs for the practicing clinician.  
This course is presented in an interactive format and incorporates case discussions. Each  
lecture may be taken for individual credit; (for a total of 6.5 CME credits | 7.8 Nursing  
Contact Hours). This course is offered free of charge; however CMEs are \$15 per half day /  
\$30 per full day. Nursing contact hours are free.
